1. Profile login screenshot

HackerRank profile, logged in as Bangla Deekshan Raj (@deekshan_b_2029). The badge shown is Problem Solving.

2. Submissions list (page 1)

Page 1 of the submissions list: nine problems Accepted, plus one earlier Wrong Answer attempt on Database Normalization #1 - 1NF that was later solved.

Earlier attempt: Basics of Sets and Relations #2 was first a Wrong Answer, then Accepted on the next attempt (shown in section 4).

Problem	Language	Time	Result	Score	Action
Basics of Sets and Relations #2	text	16 minutes	Wrong Answer	0.0	View results

3. Problems solved (9)

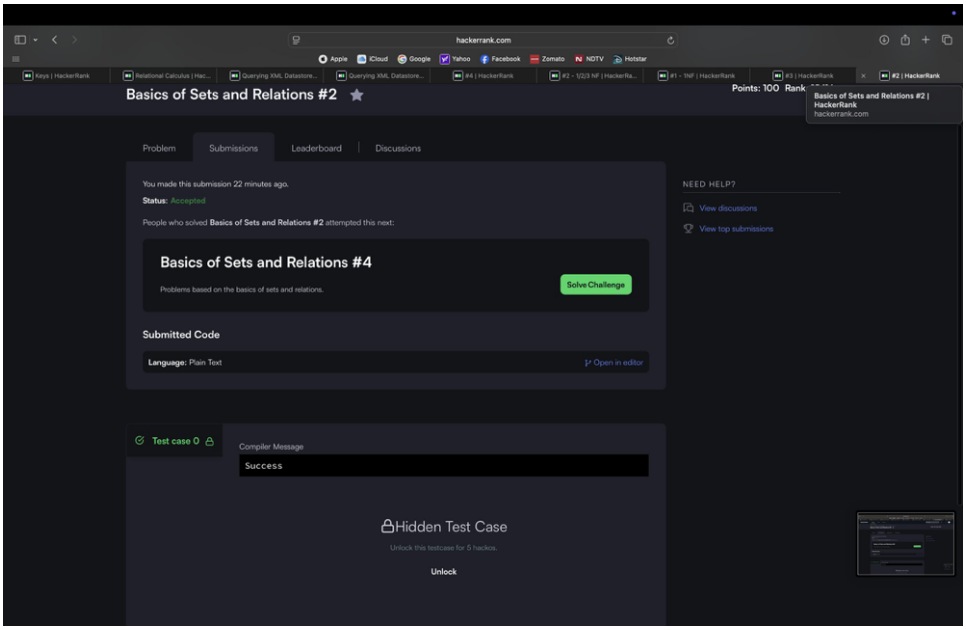

All nine problems below show Result: Accepted in the submissions list. Score is the points awarded by HackerRank (total 55.0).

No.	Problem name	Topic	Language	Result	Score
1	Basics of Sets and Relations #2	Relational Algebra	Plain Text	Accepted	5.0
2	Basics of Sets and Relations #3	Relational Algebra	Plain Text	Accepted	5.0
3	Database Normalization #1 - 1NF	Database Normalization	Plain Text	Accepted	5.0
4	Database Normalization #2 - 1/2/3 NF	Database Normalization	Plain Text	Accepted	5.0
5	Database Normalization #4	Database Normalization	Plain Text	Accepted	5.0
6	Querying XML Datastores with XPath - 1	NoSQL - XML, MapReduce	Ruby	Accepted	10.0
7	Querying XML Datastores with XPath - 2	NoSQL - XML, MapReduce	Ruby	Accepted	10.0
8	Databases - Relational Calculus	Set and Algebra	Plain Text	Accepted	5.0
9	Databases - Keys	Set and Algebra	Plain Text	Accepted	5.0

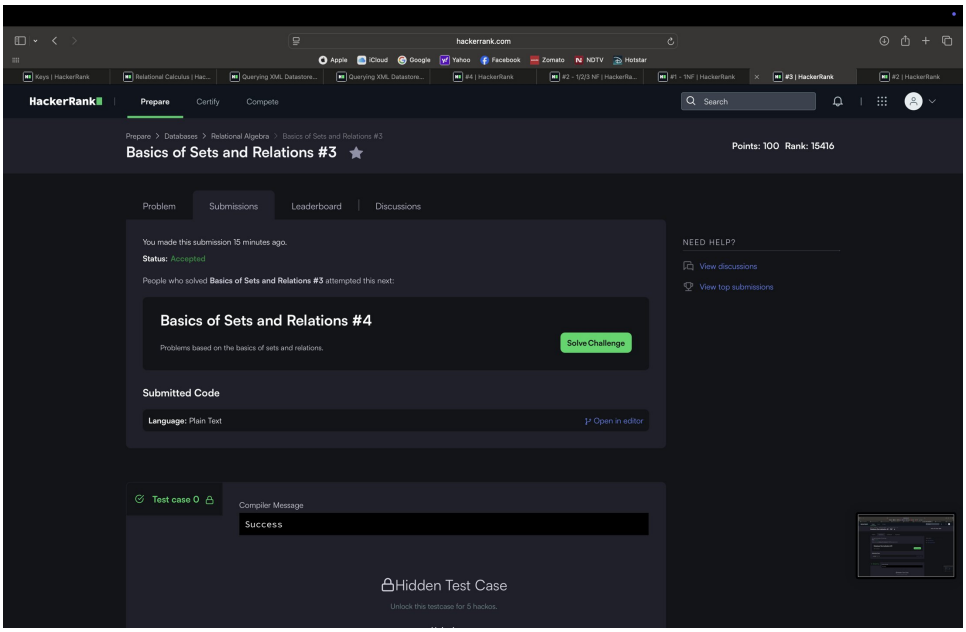

4. Submission screenshots

Each screenshot shows the problem page with Status: Accepted and the test case result.

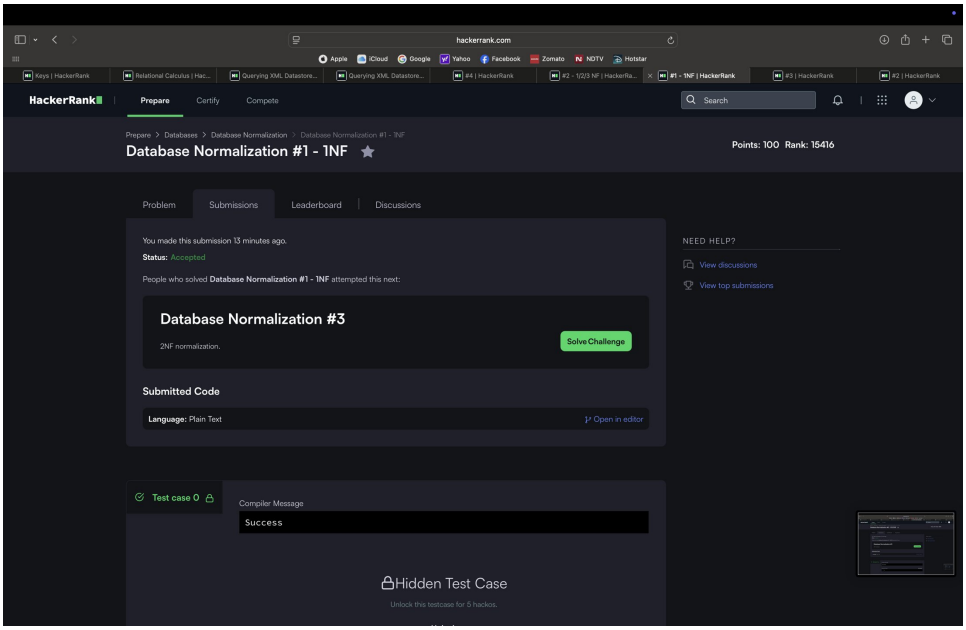

3.1 Basics of Sets and Relations #2

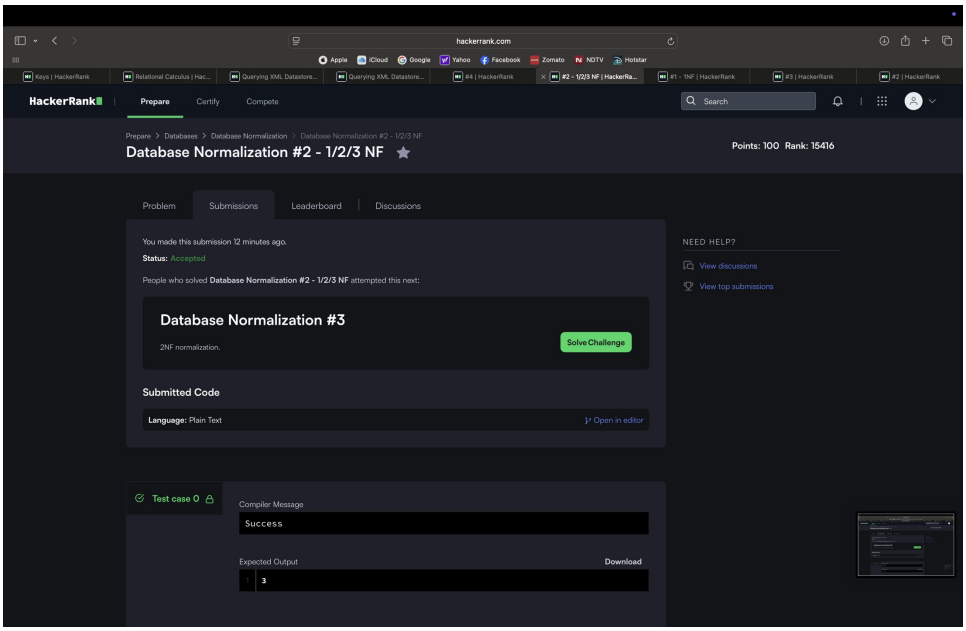

3.2 Basics of Sets and Relations #3

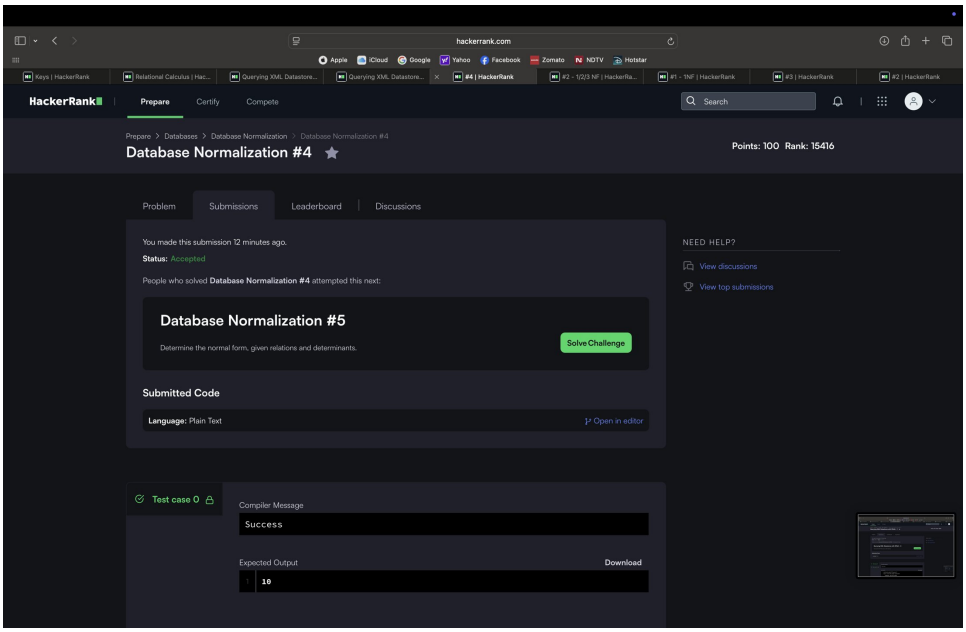

3.3 Database Normalization #1 - 1NF

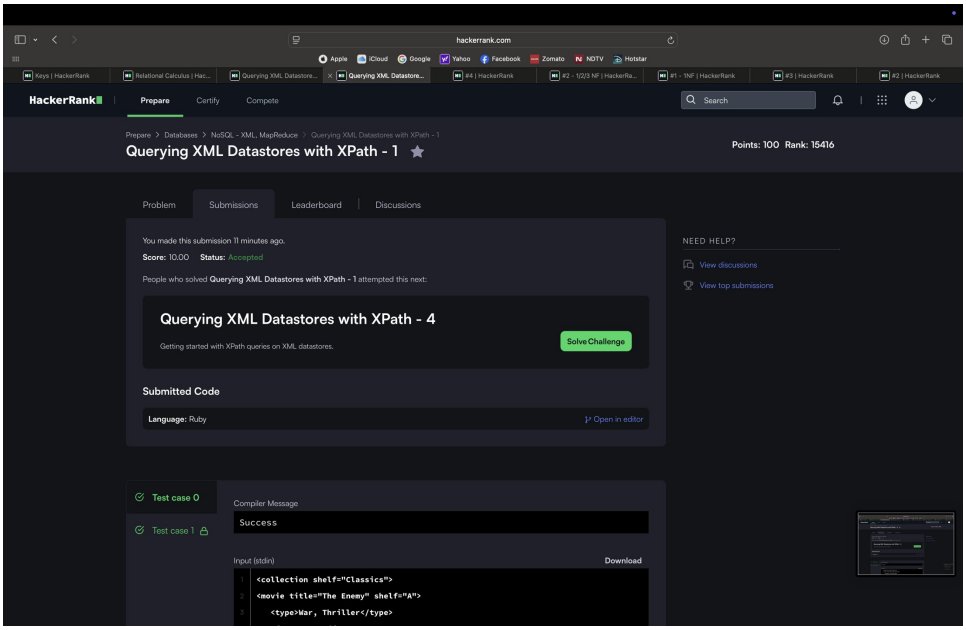

3.4 Database Normalization #2 - 1/2/3 NF

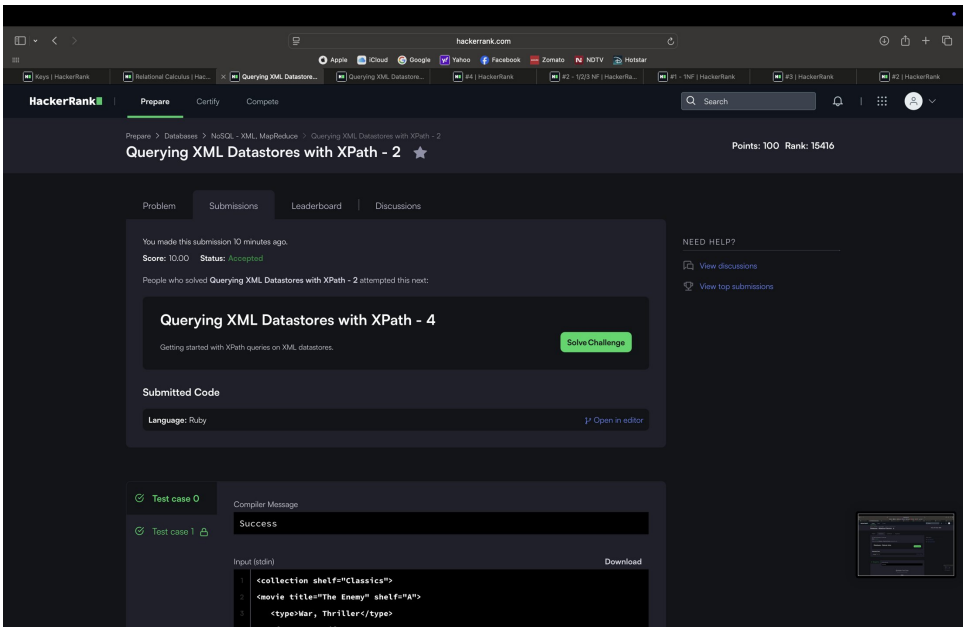

3.5 Database Normalization #4

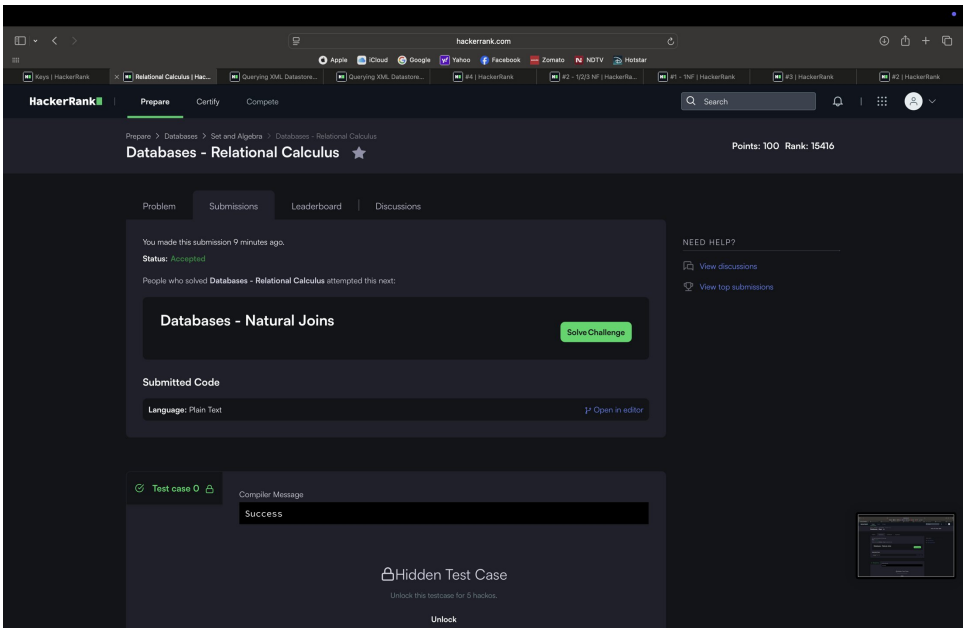

3.6 Querying XML Datastores with XPath - 1

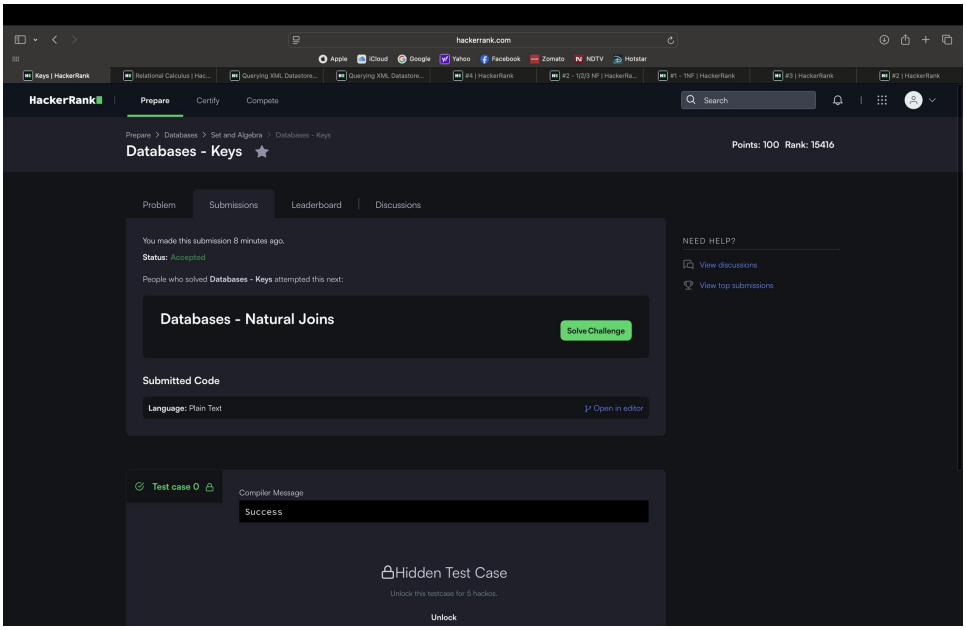

3.7 Querying XML Datastores with XPath - 2

3.8 Databases - Relational Calculus

3.9 Databases - Keys

5. Badges and certificates

Badge earned: Problem Solving (2 stars). No HackerRank certificate has been earned yet.
